FULL DAY

START: 8:30

MAGICKÉ BALI
SPIRITUAL TRADITIONS OF EVERYDAY LIFE

-  **Kusamba** (traditional salt production)
Due to the black sand, the Kusamba beach is an ideal place for salt production.
-  **Tirta Gangga** (Karangasem)
Spa/water garden built in 1948 by the royal families of Karangasem.
-  **Taman Ujung** (water palace)
Historic site on the east coast of the island. Built in 1909 by King Anak Agung Anglurah Ketut Karangas.

 The first stop on this trip will be a **batik workshop**, where you will have the opportunity to learn about the traditional way of dyeing fabrics, which has almost nothing to do with our understanding of batik. We will continue, as the name of the trip suggests, towards the east of the island, which is mostly lined with black lava sand beaches. These beaches are known to be warmer, and for this reason sea salt is often traditionally produced there. One such place, **Kusamba**, will be our stop for you to see the process. We will continue to **Tirta Gangga** Royal Baths/Water Gardens, famous for its elegant fountains and ponds. The journey in the footsteps of the royal families will take us further to another royal residence. **Taman Ujung** Water Palace. This place was used by the royal families of Karangasem to rest and relax by the sea on hot tropical days. It has picturesque gardens, several pavilions and terraces with views of the surrounding countryside and the sea.
