

# INDIVIDUAL TRIP - HIKE TO MOUNT BATUR

Gunung Batur - sunrise - natural hot spring

## Gunung Batur Volcano

Active stratovolcano in Bali, notable for its height of 1,717 meters above sea level and beautiful caldera, which includes Lake Batur. It is part of a caldera complex and has a younger conical summit.

## Batur Natural Hot Spring

Natural hot springs on the shore of Lake Batur are powered by the geothermal activity of the volcano. They offer several pools with varying temperatures and picturesque views of the surrounding mountains and Mount Batur.
