

## MAGICAL NATURE OF THE HINTERLAND

Butterfly Park - Jatiluwih Rice Terraces - Ulun Danu Beratan Temple - Bedugul

FULL DAY

START: 8:30

**MAGICKÉ BALI**  
DISCOVER THE BEAUTY OF BALI AND INDONESIA

### **Bali Butterfly Park** (Tabanan)

The Butterfly Park is home to many rare species of butterflies and exotic insects.

### **Jatiluwih** (Penebel)

A UNESCO heritage farming area with beautiful terraced rice fields.

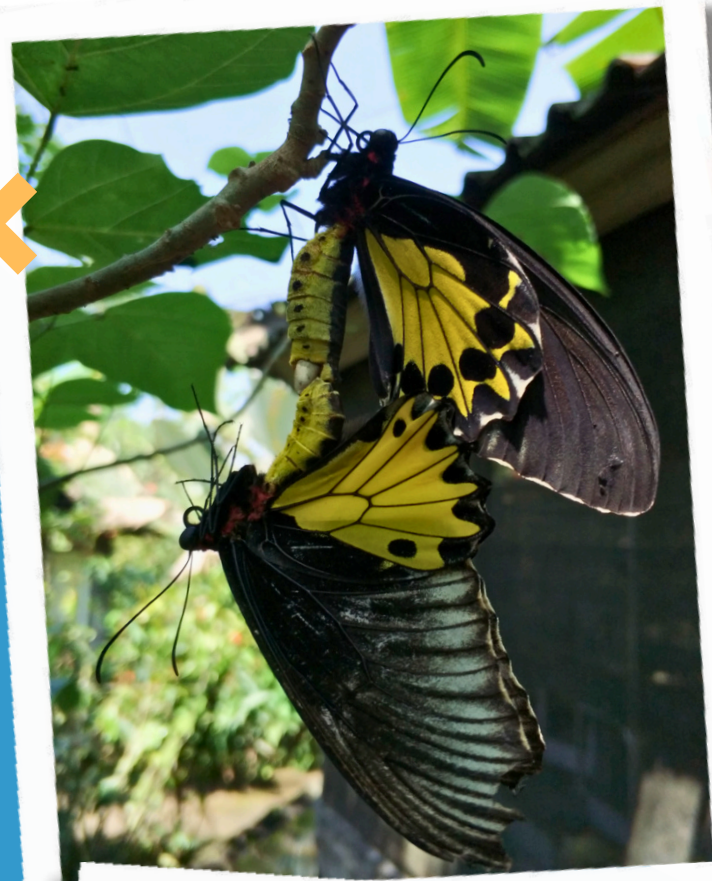

### **Pura Ulun Danu Beratan** (Bedugul)

A temple in the chill mountain region. The valley 1200m above sea level shelters three lakes, a village and a charming panorama.

This trip leads us to the northwest of the island. The first stop is the **Kupu Kupu** butterfly park, where you will have the opportunity to see various types of exotic butterflies, even take pictures with them, and at the same time view an extensive exhibition of not only exotic butterflies but also other rare and unusual insects. We will then continue north to the **Jatiluwih** rice fields, a UNESCO natural heritage site. Here you will get to know the traditional way of growing rice and learn about its different types. After lunch with a view of the rice fields, we will continue to the valley in the **Bedugul Mountains** (approx. 1200m above sea level) with 3 large lakes: Tamblingan, Buyan and Beratan. First, we will visit the **traditional fruit and vegetable market** and then the temple located on the largest of the lakes - Danau Beratan - **Pura Ulun Danu Beratan**. This temple is dedicated to the goddess of rice Dewi Sri and is mainly used by local farmers to give thanks and make offerings to the gods for a good harvest.
